TECH-SAVVY ADVISORY BUREAU (TSAB)

Company Profile ↗

Who We Are

Tech-Savvy Advisory Bureau (TSAB) is a Saudi technology company delivering comprehensive digital transformation services, including IT infrastructure, data management, data quality, big data, analytics, cybersecurity, ERP systems, and advanced 4IR technologies such as AI, machine learning, blockchain, RPA, robotics, and IIoT. By combining deep technical expertise with leading-edge technologies and research, TSAB provides best-in-class solutions that enhance business efficiency and performance through the effective application of modern information technologies.

A Center of Excellence for Digital Transformation 

Our Vision & Mission ↗

 Tech-Savvy Advisory Bureau LLC (TSAB)

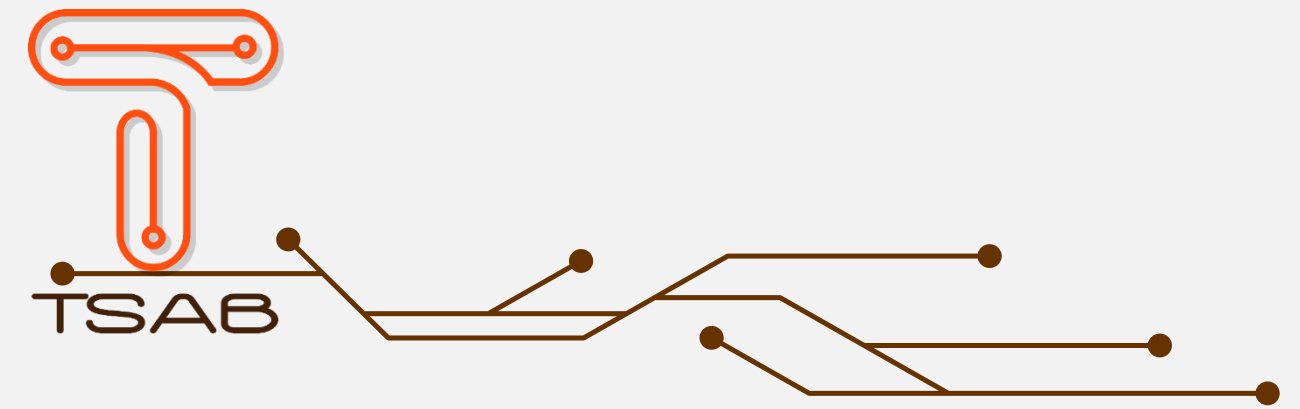

Our Vision

To be a leading technology provider in the regional market. We aim to tailor our solutions to align with market dynamics and the economic progress arising from the kingdom's 2030 vision. Providing native quality and cost-effective technology to the region is a key goal of our company.

Our Mission

We deliver high-quality digital transformation services that improve business efficiency and reduce costs. Our success is driven by strong partnerships with leading technology providers and local research allies, supported by global best practices and proven quality standards. We prioritize training and career development and maintain a genuine Saudization program to cultivate and retain talent.

Our Core Values

Innovation

We view innovation as the engine that drives our vision for the future. By exploring emerging technologies, challenging traditional limits, and fostering a creative mindset, we deliver advanced, forward-thinking solutions that keep our clients ahead in a rapidly evolving digital world

Integrity

Integrity is the cornerstone of our work and relationships. We operate with transparency and ethical responsibility, earning the trust of our clients by upholding the highest professional standards. Every solution we deliver is designed to be reliable, secure, and aligned with our clients' long-term success.

Impact

We are committed to creating meaningful, measurable impact for the wider Saudi digital ecosystem. By leveraging innovative technologies, we empower organizations to transform, grow, and contribute to the Kingdom's vision for a competitive, knowledge-based economy.

Company History

2018

Foundation

Foundation of TSAB as an independent company.
Formation of the founding team.
Offered core IT consulting Services

2019

ERP Services

Applied for Oracle NetSuite partnership as a solution provider.
Started offering ERP consulting services

2021

AI Introduction

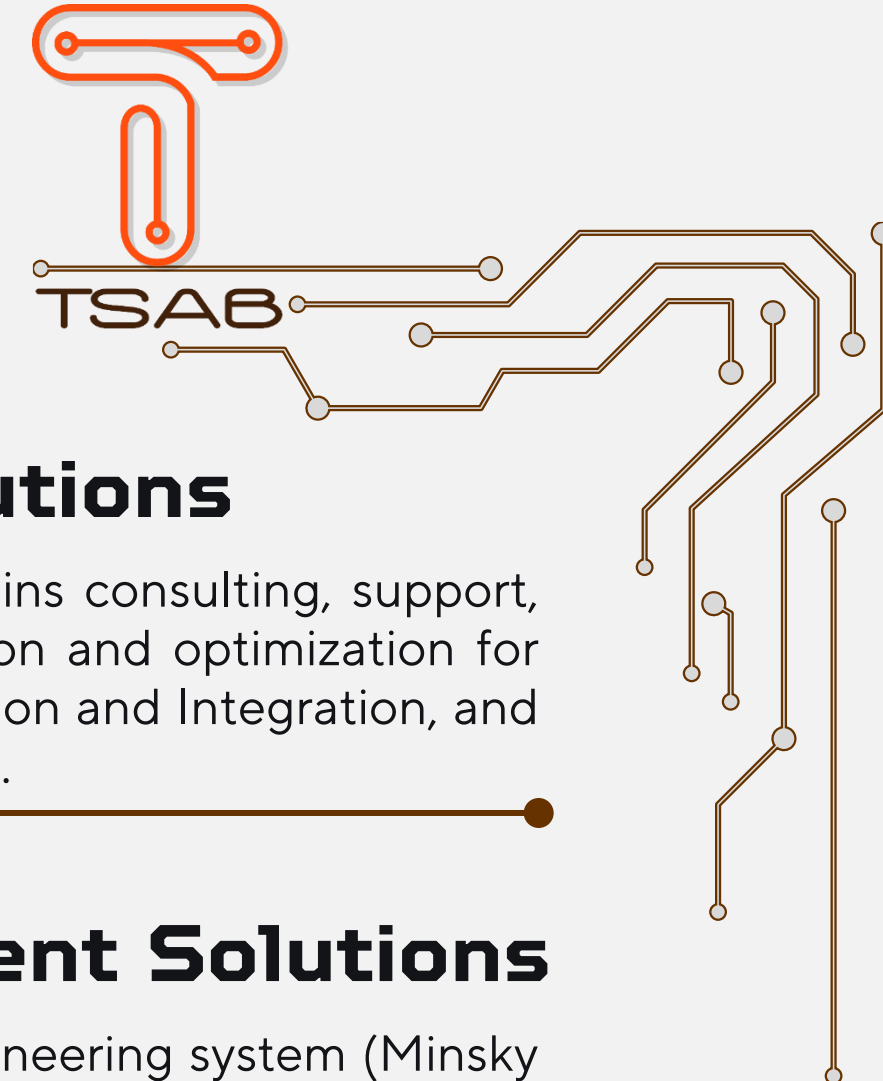

Qualified as an authorized solution provider for Oracle NetSuite
Implemented ERP projects and generated new projects.
Established an exclusive partnership with Ai Labs Inc, USA, for AI solutions.

2023/24

Latest Expansion

Implemented multiple ERP projects & gained recognition.
Started our AI services.
Became a partner to Oracle, SAP, Microsoft, and Odoo.
Became a partner to the Future Factories Program, TechAdoption, & SDAIA.

Our Solutions

Core IT Services

We capitalize on our strong overarching expertise to deliver outstanding technical services, data quality and security services.

Enterprise Solutions

Our service spectrum contains consulting, support, management, implementation and optimization for ERP systems, system migration and Integration, and Robotic Process Automation.

AI Solutions

Using our proprietary AI platform (Minsky®), we provide custom end-to-end innovative solutions to drive business transformations resulting in smart processes and data-driven decisions.

App Development Solutions

Our next-generation AI engineering system (Minsky AiFactory™) transforms how organizations build, audit, and deliver software.

AI-Aided Solutions

TSAB provides a path to build custom AI solutions with Minsky™ and put them in practice with a prescriptive methodology and artificial intelligence (Ai)-enabled automation by combining the power of Robotic Process Automation (RPA). These solutions include cybersecurity, IIOT, blockchain, etc.

Core IT Services

Offered by the Best

Our core IT services include:

- Digital Transformation Consulting
- General Technical Services
- Data Quality Services
- Data Security Services

Expert Service

We provide exceptional IT solutions to businesses throughout the region. Our strong technical team and highly qualified management are making us the company of choice for a growing number of clients. We provide core IT services to businesses across a variety of industries throughout the region.

TSAB

 Tech-Savvy Advisory Bureau LLC (TSAB)

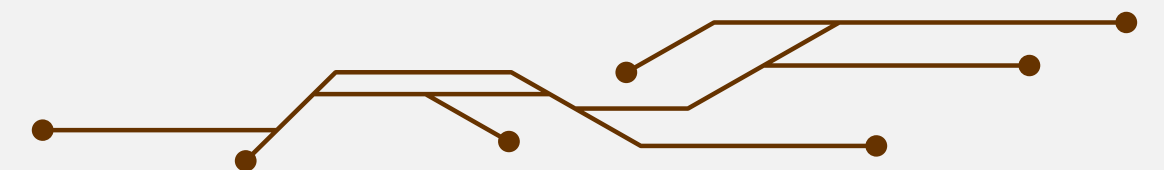

Enterprise Solutions

Consulting - Implementation, - Management - Optimization

- ERP Solutions (Oracle, SAP, MS, Odoo, and in-house)
- HR & Payroll Solutions
- Application Integration Solutions
- Legacy System Migration
- Technology Support & Maintenance
- Business Process Automation
- Technology Consulting Services

Service Delivery

We do understand that in today's dynamic IT domain, the quality of service delivery and support is a key competitive advantage. Therefore, we strive to deliver our services to the highest quality standards and to provide our technical support services in a competent, expeditious, and secure manner.

 Tech-Savvy Advisory Bureau LLC (TSAB)

AI Solutions

AI/ Machine Learning

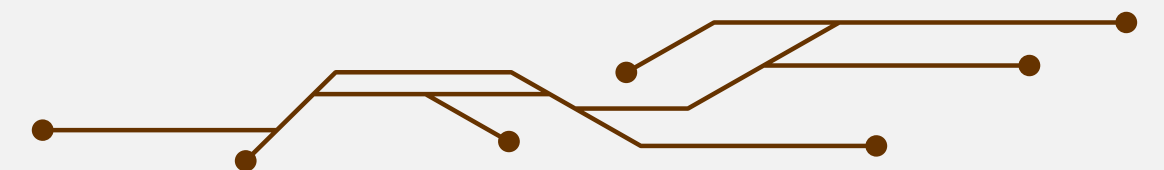

We use machine learning, deep learning, NLP and neural networks or any branch of AI wherever required to perform complex tasks such as predictions, recommendations, anomaly detection and much more. Using our proprietary AI platform (Minsky®) we provide custom end to end innovative solutions to drive business transformations resulting in smart processes and data driven decisions.

AI Consulting Services

Our AI consulting services include:

- AI consulting, business analysis and scope development
- Custom Artificial Intelligence applications using our Proprietary Minsky AI Engine as the platform along with the Clients' datasets
- Custom AI project migrations to 3rd-party Cloud platforms.
- Digital twin simulation environments for manufacturing
- AI/ML/DL solutions using our Minsky AI Engine or on 3rd-party Cloud platforms
- Custom deep neural networks implementations
- Big data predictive analytics/decision-support systems for massive data sets
- Custom AI enabled Robotic Process Automation (RPA) projects

 Tech-Savvy Advisory Bureau LLC (TSAB)

Application Development

Faster ** Lower Costs ** Better Code Quality and Maintainability ** Stronger Security and Compliance Posture ** Scalable Adoption

Minsky AiFactory™

our AI-aided software development capabilities, utilizing the proprietary technology of our technology partner, Ai Labs Inc. USA, Minsky™ AI Factory, which is an integrated enterprise AI platform that transforms software delivery into a fully automated, auditable, and intelligent system. It combines three powerful platforms—Minsky™ CodeGen, Minsky™ CodeAudit, and Minsky™ CodeTest—to enable end-to-end software lifecycle automation.

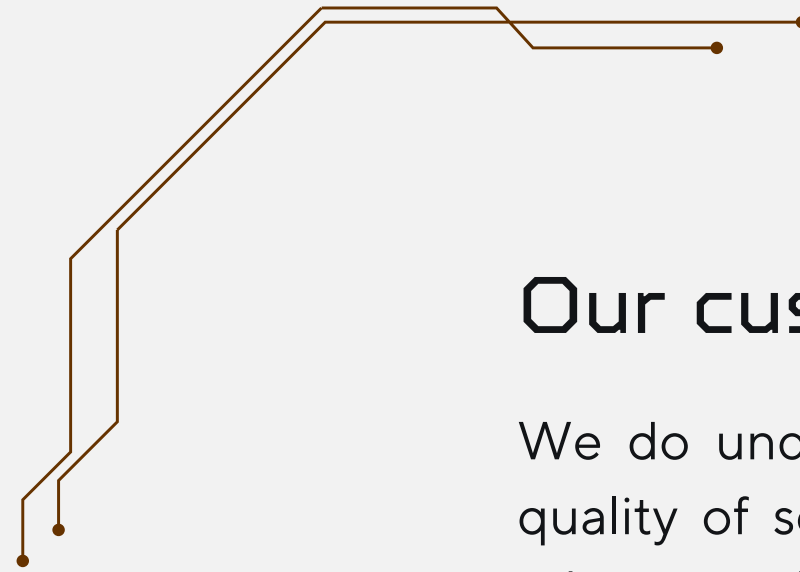

This integrated loop—where generation and auditing reinforce each other—is a breakthrough model that moves beyond the limitations of template-based tools and probabilistic AI assistants. IT enables faster, higher-quality software delivery while ensuring continuous compliance and alignment with business requirements.

Where Minsky Makes the Biggest Impact

- Enterprise application development
- Legacy modernization
- Regulated industries (finance, healthcare, government)
- Cloud and platform engineering
- Large-scale digital transformation programs
